India • Open for Overseas Locations • Open to Relocation & Remote

PROFESSIONAL SUMMARY

Results-driven Senior Product Designer & UX Research Lead with 10+ years of experience delivering measurable impact for Fortune 500 clients — HP, Samsung, and Riverbed. Full-lifecycle UX expertise spanning discovery research, information architecture, interaction design, high-fidelity prototyping, scalable design systems, and AI-augmented product workflows. Proven 40% uplift in user task efficiency, improved conversion rates, and cross-platform product launches across enterprise SaaS, analytics dashboards, and consumer web. Embedded Agile design leader with deep GenAI literacy, Conversational UI design, and WCAG accessibility expertise. Open to global opportunities and overseas relocation.

CORE COMPETENCIES & 2026 AI SKILLS

UX Research & Strategy

Interaction Design

Information Architecture

Usability Testing

Heuristic Evaluation

User Journey Mapping

Empathy Mapping

Design Systems

Enterprise & SaaS UX

Data Visualization Design

Wireframing & Prototyping

WCAG Accessibility

Inclusive Design

Agile / Scrum

Stakeholder Management

UX Writing

Visual Design & Branding

Design Thinking Facilitation

Cross-platform Design

AI-Augmented UX Design

Prompt Engineering for Design

Conversational UI / Chatbot UX

AI Feature UX (Trust & Transparency)

Human-AI Interaction Design

LLM Interface Design

AI Research Synthesis

Generative AI Workflows

Ethical AI & Responsible Design

AI Prototyping (v0 / Galileo AI)

= 2026 AI / emerging skill

Tools: Figma • Adobe XD • Sketch • Miro • FigJam • Protopie • Zeplin • Photoshop • Illustrator
AI Tools: ChatGPT • Gemini • Claude • Midjourney • Adobe Firefly • Galileo AI • v0 by Vercel • Maze • Perplexity

PROFESSIONAL EXPERIENCE

Infogain

Senior Product Designer / UX Research Lead

Apr 2022 – Present

Noida, India (Remote • Global Delivery)

- Client: Riverbed Technology**
- Led end-to-end UX transformation of Riverbed's enterprise support platform serving global enterprise customers across multiple geographies and industries.
 - Conducted usability audits, stakeholder interviews, contextual inquiry & heuristic evaluations — translating findings into actionable design strategy aligned with business goals.
 - 40% increase in user task efficiency** — achieved via full redesign of information architecture, navigation framework, and task flows.
 - Produced high-fidelity Figma prototypes and a component-based design system ensuring consistency across all enterprise touchpoints.
 - Primary UX advocate embedded in Agile squads — sprint planning, daily engineering collaboration, and cross-functional stakeholder demos.
 - Championed WCAG 2.1 accessibility and inclusive design; applied AI research synthesis tools to accelerate insight generation from user data.

Infogain

Product Designer — Internal Analytics Dashboard

2022

Noida, India

- Client: HP Inc.**
- Designed a data-driven internal analytics dashboard for HP operations teams monitoring real-time KPIs and business metrics.
 - Translated complex multi-dimensional datasets into intuitive visualizations — KPI tiles, trend charts, drill-down views — improving decision velocity.
 - Built a reusable UI component library and redesigned navigation hierarchy; received direct positive stakeholder feedback.

PROFESSIONAL EXPERIENCE (CONTINUED)

Infogain

Product Designer — SaaS Workflow Monitoring Dashboard

2022

Noida, India

- Client: FMCO**
- Designed a centralized SaaS workflow-monitoring dashboard; delivered end-to-end interactive wireframes and production-ready prototypes in close collaboration with engineering teams.

Infogain

Product Designer — Consumer Web Platform

2021

Noida, India

- Client: Neighbourly**
- Designed a responsive customer-facing web platform improving service discovery, provider browsing, and booking conversion; iterated navigation architecture from usability test findings.

Enterprise UX Designer — Cross-Platform Applications

Apr 2019 – 2021

Noida, India

Client: Samsung

- Designed enterprise-grade internal applications across 5 platforms — macOS, iOS, Android, Windows, Web — for Samsung's global workforce.
 - Collaborated directly with Samsung's Korean UX team and international stakeholders to harmonize global design standards and brand coherence.
- Produced user flows, wireframes, and interactive prototypes; facilitated cross-geography design reviews with distributed stakeholder teams.

Tekshapers

Senior UI/UX Designer

Jun 2017 – Apr 2019

Noida Sec-65, India

- Designed product interfaces for web, iOS, and Android across diverse client verticals; ensured faithful UX-to-UI translation and pattern library consistency.
- Conducted a comprehensive UX audit for a leading e-learning platform — delivered targeted improvements that measurably improved sign-up and onboarding conversion flows.
- Designed intuitive onboarding experiences for SaaS products improving retention and reducing early-stage churn; collaborated on full product lifecycle delivery.

Chromefinfotech

UI/UX Designer

Jul 2016 – Mar 2017

Noida, India

- Built UI/UX foundation designing wireframes, user flows, and mockups for web applications; applied usability principles and collaborated with developers for pixel-perfect implementation.

KEY ACHIEVEMENTS

- 40% increase in enterprise user task efficiency** — IA overhaul and full UX redesign at Riverbed Technology.
- Delivered design solutions for Fortune 500 clients — HP, Samsung, Riverbed — across SaaS, analytics, and consumer web.
- Led cross-platform UX across macOS, iOS, Android, Windows & Web for Samsung with Korean & international stakeholder alignment.
- Spearheaded WCAG 2.1 accessibility and inclusive design — broadened usability for diverse global enterprise users.
- Conducted e-learning UX audit driving measurably improved conversion rates and onboarding flows at Tekshapers.
- Certified in GenAI, Prompt Engineering & Gemini — actively applying AI-augmented workflows to UX research, ideation, and prototyping in 2026.

EDUCATION

Indian Institute of Technology (IIT) Bombay

UX Quality Improvement Programme (CE & QIP) — User Experience Design

Dec 2021 – May 2022

Mahatma Gandhi University

Bachelor of Arts — Multimedia & Graphic Animation (UI/UX Specialization)

2012 – 2015

CERTIFICATIONS & LANGUAGES

- Master Digital Product Design: UX Research & UI Design** — Udemy, Feb 2024
- Prompt Engineering for ChatGPT** — Vanderbilt University (Coursera)
- Generative AI for Everyone** — DeepLearning.AI (Andrew Ng)
- Introduction to Gemini for Google Workspace** — Google
